

TIME WARNER CABLE BUSINESS CLASS

Wideband Internet

Today, data-intensive applications and services such as data, voice and video are dominating the Internet. As a result, IP is rapidly becoming the primary transport medium for these applications. It is now more important than ever for your company to have reliable Internet services with scalable bandwidth speeds. That is why Time Warner Cable Business Class, a leader in providing innovative technology and best-in-class products, is transitioning from broadband to wideband service with DOCSIS 3.0, an industry standard for offering data over cable.

By delivering Time Warner Cable Business Class Wideband Services over our Hybrid Fiber Coax (HFC) infrastructure, we have again proven our commitment to investing in next-generation network technologies that help businesses be more productive. From metropolitan centers to outlying areas, our advanced network infrastructure is able to reach more businesses in more locations. To meet your unique business needs, new tiers are available in a range of bandwidth speeds up to 50 Mbps. Plus, increased speeds make it easier for you to converge data services seamlessly over a single IP connection and minimize costs.

Migrate from broadband to wideband today with Time Warner Cable Business Class. We offer businesses a broad range of Internet, Phone, Cable TV, Ethernet, and Mobile solutions. Contact your local Time Warner Cable Business Class office for a free consultation today.

- > **Greater Productivity:**
Delivers premium bandwidth throughput speeds, enabling your business to be more productive.
- > **Bandwidth Scalability:**
Provides dynamically scalable bandwidth speeds up to 50 Mbps to meet your evolving business needs.
- > **Network Availability:**
Extends the reach and quality of your network via our Hybrid Fiber Coax (HFC) infrastructure.

You first. The technology follows.™

Wideband Internet

Benefits

- > **Network Reach** — Easily link business locations with our unique network infrastructure that extends from metropolitan to outlying areas
- > **Easy Installation** — Migrate without disruptions to day-to-day business operations
- > **Increased Productivity** — Scale bandwidth speeds for quicker e-mail uploads and downloads to enhance business productivity
